#### C Encircle

### **Getting Started with Encircle Hydro**

- Launch Hydro by clicking the Hydro button on the claim home page.
- 2

Click **Start Here** to jump into the task list.

#### 3

# Work your way through the required tasks.

 a. On Day 1, you will be prompted to complete the Job Setup tasks such as setting up drying chamber(s), taking reference readings, equipment calculations, etc. (see glossary for detailed descriptions of these tasks).

4 Mark the task list as **Complete** when you have finished all tasks.

#### GETENCIRCLE.COM/WATER-DAMAGE-RESTORATION

# Complete the task list for each new visit.

a. After completion of the **Job Setup**, subsequent visits will be labeled Visit 2, Visit 3, etc. and you will be prompted to take new readings for each visit. Mark each visit as **Complete** when done.

6

When drying is complete, make sure to remove all equipment from the job. Tap the **Equipment** card from the Job Review screen. From there you can remove equipment in one of two ways:

- a. Tap the **3 dots** at the top right corner and select **Remove All Equipment**.
- b. Tap the **Days on Site** tab. Scroll down to the bottom of the page and select **Remove All Equipment**.
